

INKPRESS RAG WARM TONE 200

Thickness: 15 mil • Weight: 200 gsm

Inkpress Rag Warm Tone 200 is a 100% cotton rag, acid and lignin free, archival media for professional fine art printing. The natural white coating and high DMAX of 1.61 with 100% pigmented ink and 1.92 with Epson's Ultrachrome ink provides excellent color reproductions. Additionally, a unique feature of this specially formulated coating is its light and water resistant properties, which help to ensure its archival qualities.

Inkpress Rag is manufactured at Monadnock Paper Mill, the most experienced paper mill in the country. Monadnock has been manufacturing paper since 1819 and is one of very few prime manufacturers, the substrate and coatings are produced in-house.
